Design & Build Agreement

MASTER SERVICES AGREEMENT

Project: Product design and launch
Client: [Client company]
Provider: First Pixel Studio
Effective date: [Date]
Prepared by: Akshat Mishra

1. Engagement

The client engages the provider to deliver professional services described in an agreed statement of work. Each statement of work will identify the scope, deliverables, schedule, fees, and responsible contacts.

2. Scope of services

Services include discovery, interface design, reusable components, implementation, and handoff. Work outside the agreed scope requires a written change order approved by both parties before additional services begin.

3. Responsibilities

The provider will perform the services with reasonable skill and care. The client will provide timely access to the information, systems, personnel, and decisions reasonably needed to complete the work.

4. Fees and payment

Fees and expenses will be set out in each statement of work. Invoices are payable within thirty days of receipt, subject to any good-faith dispute communicated promptly in writing. Expenses require prior approval.

5. Delivery and acceptance

The provider will deliver completed work for review against the agreed acceptance criteria. The client will provide consolidated feedback within the review period specified in the statement of work.

Design & Build Agreement

6. Intellectual property

Each party retains its pre-existing intellectual property. Ownership and permitted use of project deliverables will be described in the statement of work, including any third-party materials or reusable provider tools.

7. Confidentiality

Each party will protect confidential information received in connection with the services, use it only to perform this agreement, and restrict access to authorized personnel who need it for that purpose.

8. Term and termination

This agreement continues until terminated in accordance with its terms. Either party may terminate a statement of work for a material breach that remains unresolved after written notice and a reasonable opportunity to cure.

9. Changes and communications

The designated project contacts will coordinate delivery and document changes to scope, milestones, or fees. No change is effective until approved in writing by both parties.

10. General terms

The parties are independent contractors. Any applicable limitations of liability, warranties, insurance, dispute resolution, and governing law must be reviewed and completed before executing a final agreement.
